

Sports Premium Funding at Water Leys Primary School

Sport Premium funding, also known as Olympic Legacy funding, for Physical Education and School Sport was announced by the government in March 2013. This substantial sum of £150m per year is going directly to schools this autumn, running from September 2013 to August 2015. The new 'ring-fenced' funding – only to be spent on PE and sport – will go directly to schools who will decide what is best for their children's needs with the aim of improving the quality of provision in every state primary school in England. This could vary from specialist coaching and teacher training to dedicated sports programs, Change4Life sport clubs and support for after-school or weekend competitions.

Here at Water Leys Primary School we will be receiving around £9500, which in accordance with the guidance we will be channeling directly into developing the provision of Sport and PE throughout the school. We have developed a plan that is based around the academic year September 2016 to July 2017. Below is a breakdown of how the funding will be spent with how we will be measuring its impact on our children.

- A specialist P.E teacher to support the teaching and learning offered by the school through the development of child led assessment, the design of a physical performance tracker and teacher consultation. The specialist will work alongside teachers to help them develop their own skills through planning support, delivery of lessons and assessment. This support will be across the whole school ensuring that the skill of teachers and quality of PE lessons in school is significantly developed.
- The Oadby & Wigston School Sports Partnership now known as South Leicestershire Partnership group, which enables children access to a competition manager and competitions across the school sports partnership. This has previously been free but this year has cost the school £800.
- A sports specialist to be available during five lunch times in a week, to involve children in more intra-school sports. Also to be available for breakfast club.
- Release the PE coordinator/sports specialist from teaching duties throughout the year in order to develop a wider network of competitive sports opportunities and to carry out their subject leader role.
- Subsidising after school sports clubs to increase the participation of sport.
- New equipment to facilitate higher quality sports opportunities in school.
- Two sports apprentices that will be able to offer clubs, lunch time activities and will be able to help during P.E. lessons.

The impact of this funding will be measured through:

- Pupil perception questionnaires measuring the interest of children in different areas of the PE curriculum.
- Direct feedback by teachers on the quality of support offered by the specialist.
- Feedback from the specialist teacher/P.E coordinator on the level of engagement by teachers.

- The increase in the number of children engaging in inter school sporting activities.
- The number of children attending a sports club either in school or outside.

Our Sports Premium Policy and procedures are shared with our governing body and are closely monitored by our nominated governor.
